

SUMMARY

A diligent software developer with one year of experience in web application development. Eager to start my career to build innovative and cutting-edge business solutions for global clients and corporations. I'm a hard-working person who built up the experience by developing real-world projects, and by volunteering in part-time programs including mentoring new Bootcamp students at Microverse to achieve concrete goals on expected deadlines. I'm also a self-learner who is always in the process of learning new skills and technologies.

SKILLS

Front-End: JavaScript, TypeScript, React, Redux, SCSS, Bootstrap, HTML5, CSS3

Back-End: Ruby, Rails, PostgreSQL, Firebase

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full-Stack Web Developer

Remote
January 2022– Present

[Short let Island](#)– A full-stack web application, It's a group project developed with four awesome people, In this app, users can request to reserve halls for their wedding parties, conference events, etc. The requests will be sent to an admin who can either accept or reject them, you can also access the admin dashboard if you log in using the admin data available on the login page.

- Built with: Rails 7, Postgresql, React, Redux, and Bootstrap.

[EveryCent](#)– EveryCent is a fully functional Budget app built with Rails 7, the app allows users to sign in and add categories to manage specific expenses, and add budgets to control their financial expenses, users also can manage their accounts by updating their details or canceling their subscription.

- Built with: Rails7, Postgresql, and Bootstrap.

Mentor (Volunteer)

MICROVERSE

Remote

March 2022– Present

- Mentored junior web developers, providing technical support through code reviews, yielding 100% satisfaction rate from mentees and instructors.
- Proposed improvements to code organization to boost code quality and overall performance, resulting in a 30% decrease in the long-term cost of maintenance and bug fixes.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program, enhancing student retention by 20% from the previous year.

Beirut, Lebanon

Store Manager

Virgin Megastores

January 2017 – February 2021

- Tracked and analyzed sales and customer trends in order to maximize sales and revenue while minimizing expenses in all 3 locations.
- Implemented a system of mystery shoppers whose feedback led to a 20% increase in satisfaction among both customers and employees.
- Prepared daily work schedules for and assigned tasks to 30+ employees, scheduled deliveries, and enforced company policy.

- Raised employee retention to 95% through the implementation of benefits, awards, and employee development.

EDUCATION

MICROVERSE

March, 2022 – September, 2022

Remote Full-Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Lebanese International University

June 2013 – July 2017

Business Administration, Banking, and Finance, with elective MIS courses

- Learned the basics of Java programming.
- Learned the Fundamentals of networking technologies, and computer networks which helped me to get a promotion to senior sales in the electronics department at my previous job.
- Built a fully operating complex calculator app using Java, which helped me better understand programming fundamentals.
